

Stay safe

The number of people infected with novel coronavirus has increased in your local area. Don't let your guard down. Stay safe!

- Stay at home and call your doctor if you're ill
- See fewer friends and relatives
- Wear a face mask when using public transport

Always follow our five recommendations:

Wash your hands often
or use hand sanitiser

Cough or sneeze into
your elbow

Do not shake hands, hug
or kiss as a greeting –
limit physical contact

Make sure to clean
thoroughly

Keep your distance and ask
others to be considerate
